Summary:

Regarding the administrative service, discipline issue, the teaching learning process and the performance of the teachers as mentor. Regarding other areas such as facilities, safety, sports and cultural activities, co-curricular and extra-curricular activities, teachers' role and academics the students show their strong preference to the options 'Good', 'very Good' and 'excellent' which is reflected in the graphical analysis. Overall responses of the students are satisfactory. The institution has the scope to improve in some areas such as cafeteria service and parking which is reflecting in the last question. However the overall performance of the institution reflects the students satisfaction on all the aspects regarding all the questions.
