Title of Activity : Eco-friendly Holi Color Making Workshop

Organized by : Department of Botany

Date : 28/02/2026

Time : 12:50 pm onwards

Venue : Department of Botany

Resource Person (if any): Dr. Vasundhara Kadam

No. of participants: 42

Programme/Activity Summary in brief:

The Department of Botany organized Workshop on Eco-friendly Holi Color Making on 28th February 2026. The Eco-friendly Holi Color Making Workshop provided participants with a hands-on experience in creating vibrant, natural colors for the festival. The session began with an informative overview of the environmental and health hazards associated with synthetic Holi colors, highlighting the importance of sustainable celebrations. Participants then delved into the practical aspect, learning to extract colors from a variety of natural sources, including turmeric, beetroot, spinach, and flower petals. They explored techniques for mixing and blending these natural pigments to achieve a diverse palette of hues. The workshop also covered methods for preserving the colors, ensuring their longevity. Attendees actively participated in creating their own batches of eco-friendly gulal, fostering a sense of creativity and environmental consciousness. The session concluded with a discussion on promoting and sharing these sustainable practices within their communities, encouraging a shift towards safer and more responsible Holi celebrations.
